Parents came to the meeting to discuss District policy regarding transgender students using the bathroom with which gender they identify. Many were concerned with the safety and security issues this poses. A couple of students reported that they wouldn't feel safe if a student identifying as a different gender had access to their restroom. Parents asked what the District protocol was with respect to identifying a transgender student wishing access to the bathroom with which they identify. Parents asked why there can not be a dedicated bathroom specifically for transgender students.

There were also parents speaking to support the rights of transgender students and expressed concern for their mental health.

Dr. Beltz tried explained that the District was following the law as it pertains to transgender students and that the safety and security of all students at all times was the District's main priority. Dr. Beltz and the Board voiced their understanding of the concerns being expressed and that all students are supported within the confines of the law.
