February 18, 2021

Dear Hopewell Parents/Guardians,

The District was made aware of one (1) presumed positive COVID case at Hopewell High School. A presumed positive case is when an individual has COVID symptoms and was exposed to a positive COVID case.

The case involves a student in eleventh grade who was last in the building on February 4, 2021. This student was not considered to be infectious while last in school. Therefore, this positive case will NOT count to the school closure case count. There are no close contacts identified.

It is critical that all Hopewell parents monitor their child’s health and keep your child home from school if exhibiting any symptoms. Additionally, please report any COVID testing or symptoms to the school nurse.

Should you have questions, please reach out to your building school nurse or principal. Our priority remains focused on the safety of all students, families and staff.

With Viking PRIDE-

Dr. Michelle Miller
Superintendent
