January 26, 2021

Dear Hopewell Parents/Guardians,

The District was made aware of two (2) probable COVID cases today. A probable COVID case is an individual who has COVID symptoms and has been exposed to an individual who has tested positive for COVID.

These students are in kindergarten and first grade at Hopewell Elementary School. They have not been in school since January 19, 2021. These students were not considered to be infectious when they were last in the school building, so these cases DO NOT count toward building closure.

Even though our county and state COVID data continues to decline, please continue to do your part in keeping our community and schools safe. Please continue to wash your hands, wear a facial covering, and socially distance with others.

Should you have questions, please reach out to your building school nurse or principal. Our priority remains focused on the safety of all students, families and staff.

With Viking PRIDE-

Dr. Michelle Miller
Superintendent
